Chord / Bank Guitar Graphics It seems very difficult to find on the web chord boards for Bantono guitars tuned to B à € œGo à € œD à € œB # à € œB if the guitar bar. It is your first instrument, this page will not help you at all. The graphics of this page are for barite guitarists who used to play the guitar. To use the capo graph, then seek the current chord in the left column. The open guitar chord pattern resulting in the chosen chord is shown in Open (without capo) or the fret number for the postage location. The letters A «N / AA» (not applicable) are displayed when there is no open-aged chord for the chosen chord with the capo in this position. Chapter 1 is the first fret, chapter 2 is the second fret, etc. The open guitar chord patterns referred to in this graph are the following: current guitar chord patterns OPEN CAPO 1 CAPO 2 CAPO 3 CAPO 4 CAPO 5 CAPO 7 AD N / A CB BB (A #) A N / A G BB (A #) N / A D N / A C BB (A #) n/a B7 E7 n/a D7 n/a C7 B7 BB7 (A#7) A7 C F E n/a D n/a C Bb (A#) C# (Db) F# (Gb) F E n/a D n/a C B D G F# (Gb) F E n/a D n/a C D# (Eb) n/a G F# F# FE N / A D N / A EA N / A GF # (GB) FE N / A DF BB (A) A N / A GF # (GB) Fe N / A F # (GB) B7 BB (A #) A N / A GF # (GB) FECC B7 BB (A #) A N / A GF # (GB) FC # (AB) C # (DB) CB BB (A #) A N/A GF # (GB) Download this chart as a Printable Image You can carry Baritone in your guitar case (you will need to unzip it) from time to time I get an email from someone who finds my letter from Capo totally confusing and asks something like "If I put the cap in the room. Fret and play a G chord, what is it?". For you people I have provided the following table. Find the open guitar chord pattern on the left. The box "C" in the pink box represents "capo" and the following number is the fret number. so "C1" means that the cap is on the first fret, "C2" means that the cap is on the second fret, and so on. In the box where the pattern intersects with the Capo placement is the name of the chord you are making. For example, on the Barone guitar, the pattern for an open guitar chord, with the capo on the first fret (C1), becomes an F chord. With the capo on the fourth fret (C4), the pattern for an open G chord becomes an F chord # (or GB). In this picture, I only mean a small family of (what I consider to be) open guitar chords. Specifically A, B7, C, D, E, F and G (as shown above). In most cases, modifiers can "label", for example, a minor chord pattern, with the capo on the second fret, is a minor chord of F#. The same would be true for an A7 or AMAJ7 chord, i.e., the pattern for an A7 chord, with the capo on the second fret, is becomes an F chord #7 and the pattern for an amaj7 chord, with the capo on the second fret, becomes an F chord # MAJ7. Again, in this table, the guitar chord pattern is shown on the left and the actual chord, this pattern will be created on a guitar of to the right, either as an open chord or with the specified cap placement.
