

## PIXMA iP4000 Specifications

*Printer	
Type	Desktop color inkjet printer
Paper loading method	Auto sheet feed (ASF), cassette, automatic duplex printing, C/D-R printing <sup>1)</sup>
Resolution	4,800 x 7,200dpi (max.)
Throughput	Black (of one color) 27ppm Standard Color (of one color) 17ppm Standard
Printing direction	Bi-directional, uni-directional
Print width	Max. 210mm (11mm to borderless printing)
Interface	USB 2.0 Full Speed IEEE1394
ASF stacking capacity	Plain paper: Max. 13mm (Approx. 150 sheets of 60g/m <sup>2</sup> paper)
Paper weight	60 to 107 g/m <sup>2</sup>
Restriction functions	Color copy, Reverse of print head, Remaining ink amount (typical) (ink count), Printing position, Paper presence, Paper end sensor, Waste ink amount, Internal temperature, Pick-up roller, Paper feed roller position, Carriage position, Head-to-paper distance, Supported camera direct printing device, Presence of C/D-R, Supported paper size for duplex printing, Copying/Cloning of paper output size
Option during printing (highest print quality)	High-quality print mode settings: Approx. 75dB Quiet mode: 52dB
Environmental requirements	During operation Temperature 5C to 35C (41F to 95F) Humidity 10%RH to 90%RH (no condensation) Non operation Temperature 5C to 40C (32F to 104F) Humidity 20%RH to 95%RH (no condensation)
Power supply	Power supply (voltage, frequency) Power consumption Standby Power-off AC 100 to 120V, 50/60Hz Approx. 16W Approx. 0.5W Approx. 0.25W AC 220 to 240V, 50/60Hz Approx. 16W Approx. 0.5W Approx. 0.25W
External dimensions	With the paper support and output tray extended: Approx. 418 (W) x 296 (D) x 170 (H)mm With the paper support and output tray retracted: Approx. 418 (W) x 250 (D) x 170 (H)mm
Weight	Approx. 4.7kg, not including print head and optional parts
Related standards	Electromagnetic interference: VCCI, FCC, CE, CEMark, Taiwan EMC, C-Mark, CCC (EMC), Korea MIC, Gost R Electrical safety: UL, ENEC, Appliance and Material Safety Law (DENAN), UL, C-UL, CB Report, GS, CE Mark, Gost R, PT, SASO, CCC, SPRI, SABS, LVD, IEC, IECM (Argentina) Environmental regulations: RoHS (EU), WEEE (EU), Korea Package Recycle Law, Green Point (Germany), Energy Star, Eco Mark, Law on Promoting Green Purchasing
Serial number location	On the cartridge flexible cable holder (visible when the access cover is open)
Consumption ink amount (estimated)	Available (estimated) data on ink amount and cost (based on default)
Paper tray dimensions	Not available
Print head alignment	Available (automatic or manual alignment via driver utilities, or the Resume/Cancel button in Camera Direct Printing, automatic alignment as default)

\*1: Only for C/D-R printing supported regions

## \*Print head

Type	Single head with 5 removable ink tanks (each color)
Print head	Black: 720 nozzles in 2 vertical lines (100dpi), 50pt (pigment-based Black) Color: 230 nozzles in 2 vertical lines per color x 6 (1,200dpi), 5-Spt (cyan, magenta, yellow, dye-based black); 2-Spt (cyan, magenta)
Ink color	Pigment-based Black, Dye-based Black, cyan, magenta, yellow
Ink tank	IC 5-Tank (pigment-based), IC 5-Tank (dye-based)
Weight (Net)	Print head, approx. 40g
Replace interval	See website print head (including ink tank)
Part number	CY1-0400-000

For further information about extending your Canon service and support, call 18003852155, or visit our web site at [www.canonesp.com](http://www.canonesp.com). CarePAK must be purchased during your product's warranty period. Loading paper in the Sheet Feeder is easy, and is convenient if you frequently switch to and print on various sizes or types of paper. Loading paper in the Cassette allows you to print without reloading paper for each job. Flatten the four corners of the paper before loading it. You can load up to 150 sheets of plain paper 64 gsm or 17 lb, 13 mm or 0.52 inches in height in the Sheet Feeder. However, do not stack more than 50 sheets in the Paper Output Tray. For a detailed description of the printer driver settings, refer to "Windows". You can load up to 150 sheets of plain paper 64 gsm or 17 lb, 13 mm or 0.52 inches in height in the Cassette. However, do not stack more than 50 sheets in the Paper Output Tray. You can also select the paper source with the printer driver. For details, refer to "Changing the Paper Source" in the Basic Printing 1 1 Push the upper center of the Front Cover to open the Paper Output Tray. For a detailed description of the printer driver settings, refer to "Windows". The steps described in this section are for printing in Windows XP. Turn on the printer. "Turning on the Printer" Load the paper in the printer. The Print dialog box opens.

Specify the required settings. 2 Ensure that your printer is selected. 3 Click Preferences or Properties. 1 Click Media Type to select the type of media loaded in the printer. Click Cancel Printing on BJ Status Monitor to stop printing. To show BJ Status Monitor, click Canon PIXMA iP5000 on the taskbar. BJ Status Monitor opens automatically when a printer error occurs. The steps described in this section are for printing in Mac OS X v.10.3.x. Turn on the printer. "Turning on the Printer". The Page Setup dialog box opens. Specify the required settings. 1 Select Print from the application software's File menu. The Print dialog box opens. Basic Printing 2 Select your printer from Format for. For a detailed description of the Paper Source settings, refer to "Changing the User's Guide Paper Source" in the When you select the print mode appropriate to your document from Print Mode, the document will be printed in color and at a print quality suited to the characteristics of the Media Type you have selected. To cancel a job in progress, select the desired document, then click Delete. If you do so, electric shock, fire, or damage to the camera could result. A PictBridgecompliant digital camera. A Canon Bubble Jet Direct compatible digital camera. Direct Printing from PictBridgecompatible Digital Cameras Default Camera Settings. To use Photo Paper Pro, select Fast Photo from Paper type. The following sizes and types of paper can be loaded in the printer by selecting options from Paper size and Paper type. This manual refers to Windows XP operation. The operations may vary depending on your operating system. Opening the Printer Properties Dialog Box from Your Application Program Depending on your application program, the command and menu names. See inside the back cover for a list of Canon Specialty Papers and ink tanks for this printer. On the Main tab, select Custom from Print Quality, then click Set to open the Set Print Quality dialog box.

When the process is complete, click Print. To automatically optimize the image Photo Optimizer PRO automatically adjusts the photographs taken with a digital camera. Use this feature to compensate for unsatisfactory color balance and over or underexposure before printing. In Windows Me or Windows 98 If Background Printing has been disabled, the Vivid Photo function is not available. To reduce noise from images taken with a digital camera The Photo Noise Reduction function reduces noise from blue portions such as the sky, and dark portions of the images taken with your digital camera. In Windows Me or Windows 98 If Background Printing has been disabled, the Photo Noise

Reduction function is not available. Open the printer properties dialog box. Open the Print dialog box. "Printing with Macintosh" Set all necessary items. Register new printer driver settings. The Save Preset dialog box opens. Click OK. This registers your printer driver settings. You can retrieve or change the saved driver settings at any time. In Macintosh, doubleclick the hard disk icon, the Applications folder, the Easy PhotoPrint folder, and then doubleclick the EasyPhotoPrint icon. For example, using this feature, you can correct the redden caused by the camera's flash or smooth and beautify the facial skin. In Macintosh, click Print. When the confirmation message is displayed, click OK. And then, click Print in the Print dialog box. The printer will not print properly if the wrong ink tank is used, or installed in the incorrect position. With your printer, ink tanks must be installed in the order of left to right as indicated below. Black BCI6BK Black BCI3eBK Yellow BCI6Y. It is important to quickly identify the empty tank using the BJ Status Monitor Windows or error messages Macintosh and replace it. Printing will resume as soon as ink tank is replaced and the Inner Cover and the Top Cover are closed.

Checking the ink level 1 Doubleclick the hard disk icon where the printer driver was installed, the Applications folder, and then the Utilities folder. Ensure that the printer is on, and then push the upper center Front Cover to open the Paper Output Tray. Open the Top Cover, and pull down the Inner Cover forward to open. The Print Head Holder moves to the center. Then, remove the film. 2 Remove the orange protective cap from the bottom of the ink tank and discard it. Be sure to remove the clear film from the ink tank in the exact order shown in step 41, as failure to follow this step may cause the ink to leak and stain your clothes and hands. The Print Head Holder moves to the right. The ink tank installation process is now complete. Follow the procedures below to clean the nozzles. If the ruled lines are shifted after running the print head maintenance, align the Print Head. Use this function when printed results are blurred or the color is incorrect. Ensure that the Inner Cover is closed. Printing the Nozzle Check Pattern Without a Computer Nozzle check pattern printing can also be executed from the printer itself. The nozzle check pattern will be printed. Clicking Initial Check Items displays the items to be checked before cleaning. 4 When the confirmation message is displayed, click OK. 5 Ensure that the pattern is printed properly. When using Mac OS X v.10.2, doubleclick the Print Center icon. 3 Select the name of your printer from the Name list and click Utility. Examine the nozzle check pattern output by the printer. The nozzle check pattern will not be printed correctly if there is not enough ink. Note that cleaning the Print Head causes waste ink to be absorbed in the waste ink absorber. Cleaning the Print Head consumes ink, so perform Print Head Cleaning only when necessary. Do not perform any other operations until the Print Head Cleaning finishes. This takes about 30 to 40 seconds.

Clicking Initial Check Items displays the items to be checked before cleaning. When using Mac OS X v.10.2, doubleclick the Print Center icon. 3 Select the name of your printer from the Name list and click Utility. The nozzle check pattern is printed. Check the Print Head condition with the printed nozzle check pattern. "Printing the Nozzle Check Pattern" The nozzle check pattern will not be printed correctly if there is not enough ink. Note that cleaning the Print Head causes waste ink to be absorbed in the waste ink absorber. Print Head Deep Cleaning consumes more ink than standard Print Head Cleaning, so perform this procedure only when necessary. Do not perform any other operation until the Print Head Deep Cleaning finishes. This takes about one minute. Clicking Initial Check Items displays the items to be checked before cleaning. Print Head Deep Cleaning starts when the POWER lamp starts blinking. Do not perform any other operation until the Print Head Deep Cleaning finishes. Clicking Initial Check Items displays the items to be checked before cleaning. See "Replacing an Ink Tank" If the print head nozzles are still not clean, open the Top Cover and ensure that there are sufficient ink levels in all ink tanks and turn off the printer. Aligning the Print Head positions allows you to print without shifts in the color registration. Print head alignment is performed either automatically or manually. This section deals with automatic Print Head alignment only. If the pattern is printed as shown below, the Print Head is aligned

automatically. The printer is now ready to use. If the pattern is not printed successfully, open the Top Cover and Inner Cover, and ensure that the ink tanks are correctly installed. Open the BJ Printer Utility dialog box. 1 Doubleclick the hard disk icon where the printer driver was installed, the Applications folder, and then the Utilities folder. 2 Doubleclick the Printer Setup Utility icon.

If the pattern is printed as shown below, the Print Head is aligned automatically. If the pattern is not printed successfully, open the Top Cover and Inner Cover, and ensure that the ink tanks are correctly installed. Reduce the Intensity setting in the printer driver and try printing again. Slide the paper guides against the paper stack, and check to see if the paper is not loaded beyond the Load Limit Mark. See "Loading Paper" on page 3 and "Canon Specialty Media" Troubleshooting Try This on page 14. Be careful not to touch the components inside the printer. If you cannot extract the paper, turn the printer off, and then turn it back on. If the paper is loaded in the Sheet Feeder, remove the paper from the Sheet Feeder. The number of flashes indicates the type of error that has occurred. Count the flashes and take the appropriate action to correct the error. Number of Possible Cause Flashes Two flashes Printer is out of. A USB port is selected if either USBnnn Canon PIXMA iP5000 or MPUSBPRNnn Canon PIXMA iP5000 where n is a number is indicated. Camera Error Message Possible Cause Printer in use. This section describes errors that are indicated on Canonbrand PictBridge or Bubble Jet Directcompatible cameras. The error messages and operations may vary depending on the camera you are using. After the computer restarts, TURN THE PRINTER ON, and select the Apple menu, then Chooser. Click the PIXMA iP5000 icon in the Chooser. Do not click the PIXMA iP5000SV icon. Close the Chooser. Register your product at [www.registercanon.com](http://www.registercanon.com) to ensure product. How to Use This Manual How to Read This Manual Safety Precautions Printer Parts and Their Functions Front View Operation Panel Rear View Inside the Printer Using the Sheet Feeder and the Cassette. Default Photo Paper Plus Glossy, Photo Photo Paper Plus Glossy, Glossy Photo Paper, Fast Photo Photo Paper Pro Do not attempt to use printer in any way not described in this manual.

You may cause an electric shock, fire or damage the printer if you ignore any of these safety precautions. Choosing a location Do not install the printer in a location that is unstable or subject to excessive vibration. Do not install the printer in locations that are very humid or dusty, in direct sunlight, outdoors, or close to a heating source. If such changes or modifications should be made, you could be required to stop operation of the equipment. Canon U.S.A., Inc. One Canon Plaza. Since the defective product becomes the property of Canon USA at the time of the exchange, the defective product must be returned in the shipping materials provided. As an E partner, Canon U.S.A., Inc., has determined that this product meets the E. The manual covers information For this reason, it may contain information that is not applicable to your No parts of this manual may be reproduced in any form or by any means or translated into another language CANON PIXMAiP5300 082006 XX 0.000 CANON PIXMAiP5300 082006 XX 0.000 Scope This manual has been issued by Canon Inc., to provide the service technicians of this product with the information necessary for qualified persons to learn technical theory, installation, maintenance, and repair of products. The manual covers information applicable in all regions where the product is sold. A part of a line is missing on printouts. Replace the ink tank, or print head Color hue is incorrect. Replace the ink tank, or print head. By bending the front door on both sides as shown in the photo below, the front door can be removed easily. 4 Printer unit removal The printer unit is fastened to the bottom case with 5 screws. Improper wiring or connection may cause breakage of a line, leading to ignition or emission of smoke. In addition, according to the ink absorber counter value, replace the ink absorber ink absorber kit. The standard counter value for ink absorber replacement is given in the table below. The operation starts.

LED blinking Operation Remarks 1 time Print head manual cleaning 2 times Nozzle check pattern printing. The printer returns to the service mode menu selection after the correction values are

written to the EEPROM. 124. Duplex printing is performed from the ASF and cassette. While cannot be print head is locked in a pushing the print head installed. Actual print speed may vary depending on image data, print mode, type of paper used and device that the printer is connected to.
